

Garador™ Premium Steel

Sectional Garage Doors

Whether you are building a new home or thinking of renovating, you cannot underestimate the effect of the garage door on the visual appeal and functionality of your home. Garador™ understands that the garage door is often the main entrance to your home so it must be safe, reliable and secure. A Garador™ Steel Sectional door teamed with a Garador™ opener's new TrioCode™ multi frequency technology is the perfect choice.

With decades of experience, Garador™ is the leading network of garage door specialists in New Zealand

There are over 40 authorised Garador™ distributors around New Zealand who are fully trained. Our range of garage door products are exclusive to the Garador™ specialist network and we are part of the largest manufacturer of garage doors in Australasia.

Your garage door can take up to 40% of your home's frontage. This will have a large impact on the overall appearance of the house, so with all the talk about street appeal, choose wisely when renovating or building - choose a Garador™ garage door.

When a door is custom-made, your door is made for your home, so it fits perfectly. All the patterns and panels are evenly spaced, giving a consistent appearance from the street. Garador™ believe the final look of your door is of prime importance, so all Garador™ branded doors are custom-made. That's why it is essential that your Garador™ dealer visits your home to measure up your door opening, and any quotes offered over the phone should be treated with caution.

Garador™ people are proud of their products and service. This pride will continue to shine through in the service offered from the Garador™ network. Garador™ dealers are your garage door specialists.

Freephone 0800 GARADOR (0800 427 236) for dependable advice.

Design your garage door online: www.garador.co.nz

You can visualise the different options available with our design centre. It's simple. Select the desired options (1. the style 2. the colour 3. the windows) and click OK. You will then be able to see what your home will look like with a new Garador™ garage door.

The Benefits of a Garador™ Sectional Door

The Garador™ sectional garage door will ensure you can continue to enjoy your home and lifestyle, with added features that improve door safety, reduce maintenance requirements and give smooth, quiet operation.

WEATHER PROTECTION

Today's garage stores many valuable items and can also be used as another room; weather protection is important.

- ▶ Pliable bottom weatherseal to help keep out leaves, dust and rain
- ▶ Mohair
- ▶ Optional jamb edge seal to further reduce drafts and keep out the elements
- ▶ Optional insulation

When you choose a Garador™ sectional door, you're getting a door that not only looks good, but also functions smoothly and reliably.

As the garage door is an integral part of the home's design, architecture and security, the Garador™ sectional door features a range of styles, colours and options that will be the perfect fit for your home.

AUTOMATIC OPERATION WITH IDEAL SECURITY

Automatic opener bar applies a downward force on the top panel, securely locking the door from forced entry.

DURABLE HARDWARE

All Garador™ sectional doors feature superior componentry to ensure long life and smooth operation of your door.

SUPERIOR STRENGTH

The panel construction of Garador™ doors has a high inherent strength and rigidity. For wider doors, reinforcing struts are installed to combat high winds.

SPACE MANAGEMENT

The vertical opening operation of Garador™ sectional doors allows greater use of your driveway and wall space within your garage

HIGH SECURITY

The door is held firmly against the door frame by the track system. This defies forced entry.

Garador™ Newport™

Manufactured from pre-painted steel for enhanced strength and corrosion resistance, the Garador™ Newport™ is an economical choice for the garage. Available in a wide range of colours, the Newport's™ mix of fine and deeper ribs produce a modern look that fits well with most new home designs.

The Newport™ is also available in smooth finish on request with an additional charge. Automatic operation with an opener from the Garador™ Controll-A-Door® range is recommended.

For further information on how to Future-Proof your home see the back of our Colour Chart Brochure.

Garador™ Steeline™

Manufactured from pre-painted steel for enhanced strength and corrosion resistance, the Garador™ Steeline™ door allows the discerning homeowner to match their joinery or simply pick a favourite colour from the wide range available.

The deep rib horizontal lines not only give added strength but will also complement any architectural style. Garador™ Steeline™ doors are made of zinc-based steel, a combination of beauty and immense practicality, proudly manufactured in New Zealand. Also available in smooth finish on request with an additional charge. Automatic operation with the Garador™ Controll-A-Door® is recommended.

For further information on how to Future-Proof your home see the back of our Colour Chart Brochure.

Garador™ Camden™

The Garador™ Camden™ is an excellent choice for the modern garage. Available in a wide range of colours and is manufactured from pre-painted steel for enhanced strength and corrosion resistance. The Camden's™ fine ribs produce a modern look that is a perfect choice for most home designs.

The Camden™ is also available in smooth finish on request with an additional charge. Automatic operation with an opener from the Garador™ Controll-A-Door® range is recommended. See our Controll-A-Door® brochure to find an automatic opener which is right for you.

For further information on how to Future-Proof your home see the back of our Colour Chart Brochure.

A Smart Looking Door needs an even Smarter Opener

It's one thing to choose the perfect looking door for your home; but it has to operate faultlessly too. Open your door when you want to with Garador's Controll-A-Door™ range of openers now featuring TrioCode™ Technology along with these other great features:

GARADOR™ ESSENTIAL OPENER FEATURES

- ▶ Intelligent Sensitivity System (ISS) reacts to door obstructions to minimise the risk of damage to people, pets and property
- ▶ All new wheeled trolley system for softer C-Rail operation
- ▶ Garador™ PG-3 Programmer integration, allows service professionals to swiftly service and upgrade your opener with the latest operating firmware and advanced functions
- ▶ Customisable operating modes that provide greater flexibility for your garage, including Vacation Mode – which blocks out all but one transmitter, and Pet & Pedestrian Mode – providing a limited opening for non-vehicular access

WHAT IS TRIOCODE™?

Garador's TrioCode™ multi frequency technology means your opener will never have interference from household wireless products such as baby monitors and wireless entertainment systems. So when you want your garage door to open, it will.

WHY DO I NEED IT?

Most current garage door openers operate on a single 433MHz frequency with a wide reception bandwidth. Unfortunately many other household wireless products also operate on the same frequency and they don't have to be in your home, they can be in your neighbours'. If one of these items is being used in your area, or is malfunctioning, it has the potential to interfere with the operation of your garage door opener.

Garador™ Controll-A-Door™ openers now feature unique TrioCode™ multi frequency operation. The automatic frequency change function provides enhanced reliability and security, effectively overcoming common interference issues.

Garador™ Aspen™

The Garador™ Aspen™ Flat Panel sectional door, provides a sought after sleek look to the front of any house. Its distinctive minimalistic design complements most modern architecture and is a welcome addition to the Garador™ range.

The Garador™ Aspen™ is roll-formed from pre-painted steel in a smooth finish. Optionally, it can be accentuated with a wood grain texture embossing for further effect. Automatic operation with an opener from the Garador™ Controll-A-Door® range is recommended.

For further information on how to Future-Proof your home see the back of our Colour Chart Brochure.

Garador™ Sierra™

The flat folded design of the Sierra™, provides a clean look to any opening. Its distinctive minimal look and strong sharp lines are currently a favourite of modern architecture and certainly becomes a focal point of the home's design.

The superior flat folded design creates a truly flat finish that is solid and strong. The Sierra™ is the first choice for contemporary house designs that require larger garage openings. Automatic operation with an opener from the Garador™ Controll-A-Door® range is recommended.

For further information on how to Future-Proof your home see the back of our Colour Chart Brochure.

Garador™ Grange™

With its wide raised pressed panels, the Garador™ Grange™ door adds horizontal dimension to any opening. The wood grain finished steel complements virtually any architectural style and is available in a wide colour range with optional windows. Also available in smooth finish on request with an additional charge.

Automatic operation with the Garador™ Controll-A-Door® is recommended. See our Automatic Openers brochure to discover which Controll-A-Door® automatic opener is right for you.

For further information on how to Future-Proof your home see the back of our Colour Chart Brochure.

Garador™ Statesman™

The Garador™ Statesman™ door is a pressed panel door of distinction.

Its distinctive wood grain finish offers the look and feel of timber with all the advantages of high grade zinc-based steel. Also available in smooth finish on request with an additional charge.

Full colour range and window options are available from your Garador™ dealer. Like all Garador™ garage doors the Garador™ Statesman™ can be installed with a Controll-A-Door® automatic opener. See our Controll-A-Door® brochure to find an automatic opener which is right for you.

Care & Maintenance

All metal garage doors are like cars, the more you maintain and clean your car, the longer it will last. Some areas of the garage door panel that seldom receive the benefits of rain washing are prone to a build-up of contaminants which can lead to corrosion of the material. To avoid this, wash regularly three to four times per year with clean water and a soft bristle brush, more often if you are located close to the sea or geothermal areas. The parts of your garage door to pay particular attention to include the curtain face adjacent to the door head and inside over the top of a roller door. So when you clean your car, clean your Garador™ garage door too.

Timber finishes should be cleaned and maintained according to the timber finish manufacturer's recommendations. For any service or maintenance enquiries, please contact your local Garador™ dealer.

Warranty:

It's important to have peace of mind when you make a purchase, but you also want to know that the company you purchase from will be around to service your warranty as well. Garador™ is part of a company that have been manufacturing garage doors since 1946 and we offer some of the most extensive warranties available. It's important to check the fine print as well, particularly for automatic openers. Does it include the full opener for the period of the warranty, or just the motor? Does it include servicing on-site, or do you have to return the opener to the manufacturer? All of these things are important, should something happen to your opener. Garador™ premium openers include a full 5-year warranty on not just the motor, but the electronics of the opener as well*.

* Some terms and conditions apply. Please check with your Garador™ dealer.

As with all types of garage doors, for optimal trouble free performance and safety, we recommend you have your door serviced annually.

With ongoing product developments, the manufacturers retain the right to change products and specifications without prior notification. If a specification is critical to the end use, please contact the manufacturer first.

This information is provided without prejudice to the standard terms and conditions of the sale of the manufacturer. This brochure supersedes all previous brochures. Issued September 2008 by B&D Doors (NZ) Ltd, phone 09 273 8600.
